1. What is a Financial Services Guide?

This Financial Services Guide (**FSG**) is an important document to help you understand and decide if you wish to use the financial services we are able to offer you.

It provides you with information about PLUS500AU Pty Ltd (**PLUS500AU, us, our, we**) and the services we provide. Its purpose is to educate you, before we provide a financial service, on matters including:

- who we are and how we can be contacted;
- what services and products we are authorised to provide to you;
- how we (and any other relevant parties) are paid; and
- Who to contact if you have a complaint.

Before we issue any particular financial products to you, we will provide you with a Product Disclosure Statement (**PDS**). The PDS contains information about the product to assist you in making an informed decision about that product. It will outline relevant terms, significant risks (where such exist), and fees and charges associated with the product.

We occasionally provide general advice regarding the financial markets or our services. If we provide you with general advice, it may not be appropriate to your needs, financial situation or objectives, and you should consider your circumstances before choosing to proceed with using our products. Additionally, you should obtain and read our Product Disclosure Statement before making a decision.

We have arrangements in place to maintain adequate professional indemnity insurance as required by the Corporations Act 2001. This insurance provides cover for claims made against us and our representatives/employees including claims in relation to the conduct of representatives / employees who no longer work for us but who did so at the time of the relevant conduct.

5. What fees and Charges are payable to us?

There are a number of costs, fees and Charges that you may be required to pay us, in order to use our services:

Type	Description
Spread Cost	<p>Derivative (including foreign exchange derivative) and contracts-for-difference (<i>CFD</i>) transactions incur costs relating to the spread, which is the difference between the bid price and offer price.</p> <p>The “bid price” is the price at which we are willing to buy the underlying asset from you and the “offer price” is the price at which we are willing to sell to you.</p> <p>Taking the example of a foreign currency trade, we buy currency on the wholesale market and sell it to you after building in a spread. We also buy currency from clients and sell it to other clients after building in a spread. The price difference of this spread will depend on factors such as the size and value of the transaction and prevailing market rates. This spread is paid by you, but is incorporated into the quoted rates and is not an additional charge or fee payable by you above those quoted rates. We earn a spread whenever you trade with us. Of course, all buying and selling is notional, because we typically do not actually deliver the currency - it offers a platform that lets you trade over currencies only. Sometimes, in order to trade on our platforms, we will convert your money into, say, USD and this is an example of when physical delivery does occur.</p> <p>Example of a spread</p> <p><i>If we quote 1.31571(bid) and 1.31591 (offer) for EUR/USD on our online platform, then the spread of every lot of EUR/USD is $(1.31591 - 1.31571) \times 100,000$ (the minimum lot size) = \$20 USD. This spread will be deducted from your account balance at the same time that you click “buy” or “sell” on the platform.</i></p>

Commission	Plus500AU does not charge dealing commissions.
Daily Premium	<p>You may earn or pay interest, (Premium rate) by entering and holding a CFD contract after a certain time in the day has passed.</p> <p>A funding premium is either added or subtracted to your account to cover the benefit/cost of the associated funding. The Premium Time for each instrument is shown under the details tab on the platform.</p> <p>The premium you earn or pay depends on the type and size of products that you buy or sell, and the duration of the position.</p> <p>To view the funding premium and “% per day” for a specific instrument, go to the main lobby screen, select the instrument required and press details on the far right of the row.</p> <p>We may adjust Premium rates at any time based on market conditions but this will affect only new positions opened after the adjustment. Your account balance will be automatically credited or debited with premium at the daily premium time.</p> <p>Weekends and holidays If a position is opened on a Friday and held overnight until the following Monday (being the next trading day) the amount added or subtracted for the funding premium to an account is three times the daily amount to cover the entire weekend period.</p> <p>If a position is opened during a holiday period, the premium will be added or subtracted during that period until you close the position.</p>
Automatic Rollover	<p>Instruments based on futures contracts have an expiry date. For most of these instruments, once the expiry date is reached, positions will be automatically rolled over to the next contract. The date and time of the rollover is shown in each instrument’s details.</p> <p>Since the buy and sell rates vary between contracts, Plus500 will make an adjustment to your equity for the price difference. This will ensure that your equity doesn’t change and</p>

	<p>can be activated and edited only when there is trading and once activated cannot be removed - only the price can be changed.</p> <p>A fee applies to a “Guaranteed Stop” which will be subtracted from your account. This fee is non-refundable once the “Guaranteed Stop” is activated and is as follows:</p> <p>X % of the spread (roundup)</p> <p>To view the actual percentage for a specific instrument go to the main lobby screen, select the instrument required and press details on the far right of the row.</p> <p>Example: Google \$500/\$502 -> spread is \$2. The guaranteed stop on shares is 50%, If you buy 10 shares of Google the Guaranteed Stop fee will be: $50\% * 10 * (502-500) = \\10.</p>
--	--

<p>Conversion cost</p>	<p>Your account balance is always denominated in Australian dollars (AUD), unless you have specified you wish to maintain your balance in another (home) currency, e.g. if you are from New Zealand, your defined (home) currency will be NZD.</p> <p>When you trade we convert the asset currency into your own currency with the rate available in the currency pair in our trading platform.</p> <p>When:</p> <ol style="list-style-type: none"> 1. Close Position - we will convert the net profit and loss (P&L) to your own currency at the moment the position is closed - until then the position P&L is valued in its asset currency. 2. Open Position - we will convert the Initial Margin and Maintenance Margin to your base currency at the time when the position is opened. <p>Example of conversion:</p> <p><i>Your balance is 100 AUD. You open a 500 EUR VodaFone position and make a net loss of -10 EUR. VodaFone: Initial Margin 10%, Maintenance Margin 2%. In our platform EUR/AUD pair is quoted: 1.2562/1.2572</i></p>
